SUBJECT INDEX

A

Abnormalities of edentulous alveolar processes and palate, surgical treatment of, 263
skeletal, appearance of, in offspring of rats reared on deficient diet, 1213 (Abst.)
Absence, congenital, of ramus of mandible, 175
Acta odontologica Scandinavica, dental journal, 193 (Abst.)
Adamantinoma, 487
operative treatment of, 490
Aderer, Julius, note on death of, 929
Agents, bactericidal and bacteriostatic, in mouth, study of comparative efficiency of, 968
used in treating gingival disease, 362
Agranulocytosis, 78
Aid, orthodontic, in periodontia and prosthesis, 93 (Abst.)
Alloy, chrome, use of, 875
used in retentive measures, 37
Alloys, precious metal, study in tempering, 29
stainless steel, 1214 (Abst.)
Alveolar processes, edentulous, and palate, abnormalities of, treated by surgery, 263
ridges, deformed, prevention of, 267
America, Latin, status of orthodontics in, 1067
American association of orthodontists, 103, 200, 305, 411, 516, 1219
president's address, 623
board of orthodontics, 306, 412
report of, 889
work of, 57
dental association, 519, 621, 723, 825, 1016
Anatomy, developmental, 512 (B. rev.)
human, principles of, 521 (B. rev.)
of maxillary and mandibular gum pads, 208
Anemia, aplastic, 72
molasses as part of diet in treating, 192 (Abst.)
primary, 67
pernicious (Addisonian anemia), 67
secondary, 70
Anesthesia, local, 803
Anesthetics, evaluation of preoperative tests for, 473
Ankylosis of temporomandibular joint, 385
Anodontia in ectodermal dysplasia, 503
Anomalies of shapes and number of teeth and question of their hereditary significance, 190 (Abst.)
Appliances or methods of treatment, biometric norm values as basis for choice of, 1052
Applications of phonetic groups of oral phonetic curve in speech, 8
Arch, lingual, philosophy of treatment with, 330
twin, technique, in chrome alloy, 879
Arches, dental, in children, growth and development of, 1105 (Abst.)
maxillary and mandibular, interrelationship of, from birth to 3 years, 214
Argentine orthodontic society, 1219
Arthritis of temporomandibular joint, 377
Ashplant, Percy Roy, in memoriam, 407
Aspects, constitutional, of orthodontic problems, 566
Attachment, snap-channel, tie-lock, 1046

B

Babies are human beings, 817 (B. rev.)
Bacterial endocarditis, 370
subacute, 371
Bacteriemias, following tooth extraction, 367
transient, review of literature dealing with, 366
Bands, intermaxillary rubber, 522
Bite, jumping of, 526
planes, 107, 120, 125
made of silver-tin, 816 (Abst.)
pressure in studies of oral cavity, 42
raising of, by plates or similar devices, 532
Biting urge, 223
Bizygomatic breadth as constitutional factor, 567
Blood dyscrasias, oral manifestations of, 67
elements, study of, in prevention of hemorrhage, 986
pressure, importance of, in capillary system of pericementum, 47
Bone, alveolar, cementum, and eruption, studies of development of, of rat molar, 854
changes resulting from experimental orthodontic treatment, 521
Bones, maxillary, treatment and complications in fractures of, 162
Breadth, bizygomatic, as constitutional factor, 567
relation of weight to, 569
Breast, human, vitamin D potency of, 298 (Abst.)
Bridgework, children's, prevents crooked teeth, 259
Brush foundation continues, 195
Busby, Oscar E., in memoriam, 101

C

Calcification of stylo-mandibular ligament, 812

Camera, miniature, and cephalo-phore, use of, for standardized facial and dental photographs, 139

Cancer of lip, 1181
current treatment of, 1011 (Abst.)

Care, physiologic, of preschool child, 508 (Abst.)

Caries, dental, and nutritional state, diet of adolescent girls, with reference to, 297

development of, in teeth of albino rats following extirpation of salivary glands, 88

susceptibility, high, in diminished salivation, 1102

Case report, 89, 188, 290, 394, 503, 602, 712, 812, 916, 1002, 1102

Cases, dental surgical, management of various types of, 64

Casts, method for making oriented, and recording dentofacial changes, 941

Cementum, alveolar bone, and eruption of rat molar, studies in, 854

Central association of orthodontists, 307, 1219

Cephalographics, standardized x-ray, 725

Cephalo-phore and miniature camera, use of, for standardized facial and dental photographs, 139

description of, 141
procedure in using, 143

Cephalostat, adjustable x-ray, 725
central x-ray director, 728

Certificates of proficiency in orthodontics, receivers of, 1113

Changes, dentofacial, method for recording, and for making oriented casts, 941

in bone, resulting from experimental orthodontic treatment, 521

morphologic, of maxillary and mandibular arches, 208

Cheek, noma of, 290

Chicago association of orthodontists, 103, 200, 305

dental society, 105, 1219

Child development and guidance told in pictures, 818 (B. rev.)

preschool, physiologic care of, 508 (Abst.)

Children, adolescent, postrachitic and nonrachitic, malocclusion in, 1119

Chin, formation of, and shedding of teeth, growth of mandible during, critical remarks relating to, 293 (Abst.)

retarded, correction by plastic operation, 1106 (Abst.)

Chlorosis, 70

Chrome alloy, use of, 875
used in retentive measures, 37

Class III, treatment of, 346

Cleft lip, cleft palate, congenital, and associated nasal deformities, 401 (Abst.)

palate, partially, double elongation of, and elongation of palate with complete cleft, 910

Cleido-cranio-facial dysostosis, report of two cases of, 397 (Abst.)

Committee on dental preparedness, 1220

Complications and treatment in fractures of maxillary bones, 162

postoperative, following removal of mandibular third molar, 278

Congenital absence of ramus of mandible, 175

Constitution and failure, 573

Costen's syndrome, 388

Cranial osteomas, from roentgenologic viewpoint, 1199

Crossbreeding of contrasted types of dogs, 627

Cyst, mandibular, with infections, 188
vs. apical infection, 684

Cysts, median anterior maxillary, 60
of jaws, 690
types of, 690

D

Deane, Harry Tennison, in memoriam, 409

Defense program, place of dentistry in, 1074

Deficiencies bringing about medico-dental problems, 1146

Deformities, nasal, and congenital cleft lip, cleft palate, 401 (Abst.)

Dental caries and vitamin C, relation between, 192 (Abst.)

centenary celebration, scientific sessions, 201

Denti-phore, method for making oriented casts and recording dentofacial changes, 941

Dentistry, anatomic principles as applied to, 1006 (Abst.)

and national defense, 1074
military, place of orthodontics in, 313
restorative, orthodontics as supplement to, 320

use and application of analysis of articulate sounds in art and science of, 1

1939 year book of, 399 (Abst.)

Dentition and face, development of, in application to orthodontic treatment, 424

deciduous, eruption of, 209

Dento-medical problems, 1146

Denture, developmental growth of face in relation to, 234

Dentures, full, construction and adaptation of, immediately following extraction of teeth, 276

Development and growth, effect of mastication on, 669

Development and growth—cont'd
and growth, facial, factors contributing to, 1019, 1027, 1036
of teeth and jaws, 829
physical, and growth, study of, 759
Diagnosis and treatment of lesions of temporomandibular joint, 374
of cancer of lip, 1181
Dictionary of foods and nutrition, 195 (B. rev.)
Stedman's medical, with etymologic and orthographic rules, 610 (B. rev.)
Diet, comparison of primitive and modern, and effect of, 194 (B. rev.)
deficient, appearance of skeletal abnormalities in offspring of rats reared on, 1213 (Abst.)
of adolescent girls, with special reference to nutritional state and dental caries, 297 (Abst.)
treatment by, 194 (B. rev.)
Dilantin hyperplasia of gingivae, 394
sodium, hypertrophy of gums due to administration of, 908
Directory, orthodontic, of world, 399 (Abst.)
Diseases, constitutional, in prognosis of orthodontic treatment, 955
surgical, of mouth and jaws, 300 (B. rev.)
Dislocations and subluxations of temporomandibular joint, 384
Displacement, distal, of lower arch, by means of intermaxillary rubber bands, 529
Distoclusion with protraction of maxillary incisors, 597
Dogs, crossbreeding in contrasted types of, 627
Drugs, therapeutic values of, 361
Dysostosis, cleido-cranial-facial, report of two cases of, 397 (Abst.)
Dysplasia, ectodermal, anodontia in, 503
Dystrophies, muscular, and allied conditions, treatment of, 813 (Abst.)

E

Eastern association of graduates of Angle school of orthodontia, contribution of, to science and practice of orthodontics, 398 (Abst.)
Effects of maxillary impacted third and fourth molars on ciliary nerves of eye, 712
of natural and refined sugars on oral lactobacilli and caries among primitive Eskimos, 715 (Abst.)
of symmetrical extraction of six-year molars, 815 (Abst.)
Elongation, artificial, of teeth, 931
of partially cleft palates and palates with complete clefts, 910
Enamel formation, abnormal, histopathologic studies of, in human teeth, 1083
maintenance of integrity of, during orthodontic treatment, 1138
Enamel—cont'd
of teeth, cases of brown coloration of, in three siblings, 191 (Abst.)
of teeth, human, 918 (Abst.)
Endocrine glands, 97 (B. rev.)
Endocrines, influence of, on teeth and jaws, 671
Eruption, alveolar bone, and cementum of rat molar, studies in, 854
Etiology of malposed third molars, influences in, 295 (Abst.)
Exodontia, influence of George B. Winter on development of, 285
Extraction, indicated constitutionally, 574
of six-year molar during childhood, 608 (Abst.)
of teeth for treatment, osteomyelitis of jaws following, importance of histologic picture of, 150
premature, and space retainer, 577
symmetrical, of six-year molars, effects of, 815 (Abst.)
Eye, ciliary nerves of, effect of maxillary impacted third and fourth molars on, 712

F

Face and dentition, development of, in application to orthodontic treatment, 424
developmental growth of, in relation to denture, 234
growth of, proportionality in, 751
recent observations on, and implications to orthodontist, 741
plastic surgery of, 961
Facial paralysis, management of, by physical measures, 922 (Abst.)
utilization of temporal muscle and fascia in, 80
Factor, constitutional, in skull form and dental occlusion, 627
Factors contributing to facial growth and development (Symposium), 1019, 1027, 1036
Failure, related to constitutional factors, 573
Fascia and temporal muscle, utilization of, in facial paralysis, 80
Fibro-osteoma (osteitis fibrosa localizata) clinically and radiographically resembling Ewing's tumor, 1002
Finger-sucking, as etiologic factor in malocclusion, 216
malocclusion accompanied by distortion of fingers, as result of, 242
Fistula, facial, of dental origin, 797
Five-state postgraduate clinic, 1219
Food, effect of, on mastication, 667
Form of skull, and dental occlusion, constitutional factor in, 627
Fractures of temporomandibular joint, 383
pathologic, of mandible, predisposed by osteomyelitis, 896
treatment of, 299 (B. rev.)

Frenum labii superioris, 192 (Abst.)
Fruits, citrus, effect of, in treatment of hemorrhagic condition, 987

G

Genetics, mammalian, 1214 (Abst.)
Gingivae, dilantin hyperplasia of, 394
Gingival disease, agents used in treating, 362
Gland, endocrine, 97 (B. rev.)
  parotid, contribution to pathology and treatment of intermittent swelling of, 923 (Abst.)
  pituitary, anterior lobe of, interrelation between vitamin B complex and, 1011 (Abst.)
  salivary, development of caries in teeth of albino rats following extirpation of, 88
    tumors of, 95 (Abst.)
Great Lakes association of orthodontists, 826, 929, 1115
    president's address, 1117
Grisamore, Thomas L., in memoriam, 197
Growing perfect teeth, 356
Growth and development, effect of mastication on, 669
    factors contributing to, 1019, 1027, 1036
    of dental arches in children, 1105 (Abst.)
    of teeth and jaws, 829
    physical, study of, 759
  individual patterns of, 751
  in mandible during shedding of teeth and formation of chin, critical remarks relating to, 293 (Abst.)
  of face, developmental, in relation to denture, 234
    proportionality in, 751
    recent observations on, and implications to orthodontist, 741
  pattern and teeth, 753
Growths, bony, on jaws, 1010 (Abst.)
Gum pads, anatomy of, 208
Gums, hypertrophy of, due to administration of dilantin sodium, 908

H

Hawley retainer, use of, in retentive procedures, 38
Head roentgenograms, lateral, and their relation to orthodontic problem, 768
Health, record of, 758
Hemorrhage, control of, 982
  postoperative treatment of, 989
  systemic treatment of, 992
Hunter, John, and his natural history of human teeth, 246
Hydro-colloidal impression material, use of, in orthodontics, 228
Hyperplasia, dilantin, of gingivae, 394
  epithelial, 494
Hypoplasia, congenital, of mandible, 716 (Abst.)

I

Incisor, absence of one peg lateral and one lateral, 465
Incisors, maxillary, distoclusion with protraction of, 597
Infection, apical vs. cyst, 684
  mandibular cyst with, 188
Inflammation, types of, 361
Influence of endocrines on teeth and jaws, 671
  of moving deciduous teeth on permanent successors, 1152
In memoriam, Ashplant, Percy Roy, 407
  Busby, Oscar E., 101
  Deane, Harry Tennison, 409
  Grisamore, Thomas L., 197
  McPhail, John A., 198
  Stilley, Van A., Jr., 198
  Van Gieson, Ransford B., 102
  Winter, George B., 515

J

Jaw, and mouth, surgical diseases of, 300 (B. rev.)
  and teeth, influence of endocrines on, 671
  bony growths on, 1010 (Abst.)
  lateral x-rays of, 734
Jaws, cysts of, 690
  osteomyelitis of, 584
Jaw-winking, Marcus Gunn phenomenon, 191 (Abst.)
Johnson, Dr. A. LeRoy, receives honorary membership, 104
Jumping bite, 526

L

Labiolingual technique, 609 (B. rev.)
Latex rubber as orthodontic aid, 353
Lesions of temporomandibular joint, diagnosis and treatment of, 374
Let's talk about your baby, 818 (B. rev.)
Letter, open, to editor, 615
Leucemia, 73
  acute aleucemic, 89
  lymphatic, 74
  myelogenous, 75
  oral manifestations in, 901
Leucokeratosis, 492
Leucoplakia, studies in, 492
  treatment of, 501
Ligament, stylo-mandibular, calcification of, 812
Limitations, constitutional, of treatment, 572
Lingual arch, philosophy of treatment with, 330
    use of hydro-colloidal impression material, in constructing, 230
Lip, cancer of, 1181
    current treatment of, 1011 (Abst.)

M

Malformations, congenital, in families, frequency of, 298 (Abst.)

Malocclusion, accompanied by distortion of fingers, as result of finger-sucking, 242
aspects of prevention of, 1009 (Abst.)
how early may it be recognized? 224
in group of postrachitic children and nonrachitic adolescent children, 1119
is thumb- or finger-sucking etiologic factor in? 216
Mammalian genetics, 1214 (Abst.)
Management of various types of dental surgical cases, 64
Mandible, congenital hypoplasia of, 716 (Abst.)
growth and development of teeth in, 829
pathologic fractures of, predisposed by osteomyelitis, 896
ramus of, congenital absence of, 175
surgical treatment of, 182
Mandibular cyst with infections, 188
mixed tumor of salivary type, 602
resection, 793
Massachusetts dental society, 200, 305, 1114
Mastication, effect of food on, 667
on growth and development, 669
muscular activity of, method of measuring, 714 (Abst.)
physiology of, 664
stresses of, 666
Masticatory apparatus, human, cinefluorographic study of, 664
Material, hydro-colloidal impression, use of, in orthodontics, 228
Maxilla, growth and development of teeth in, 829
Maxillary bones, treatment and complications in fractures of, 162
McCoy open tube, used to bring about tooth movement, 779
McPhail, John A., in memoriam, 198
Measurements, correction of, on cephalometric x-rays, 743
Medico-dental problems, 1146
Metal alloys, precious, study in tempering, 29
Method for making oriented casts and recording dentofacial changes, 941
of determining bleeding and clotting time, 987
of making snap-channel, tie-lock attachment, 1046
of measuring muscular activity of mastication, 714 (Abst.)
of procuring head roentgenograms, 768
skull and chin-cap, case treated by, 94 (Abst.)
Methods of administering local anesthesia, 805
of treatment or appliances, biometric norm values as basis for choice of, 1052
Mexican association of orthodontists, 1220
Mid-continent dental congress, 929
Molar, first, submerging, report of case of, 681
Molar—cont'd
malposed third, influences in etiology of, 295 (Abst.)
mandibular third, postoperative complication following removal of, 278
maxillary impacted third and fourth, effect of, on ciliary nerves of eye, 712
rat, quantitative studies in development of, 854
six-year, effects of symmetrical extraction of, 815 (Abst.)
extraction of, during childhood, 608 (Abst.)
Molasses in anemia, 192 (Abst.)
Mouth and jaws, surgical diseases of, 300 (B. rev.)
bactericidal and bacteriostatic agents in, study of comparative efficiency of, 968
Muscle, temporal, and fascia, utilization of, in facial paralysis, 80
Myofunctional treatment from practical standpoint, 1131

N

National defense and dentistry, 1074
Nerves, ciliary, of eye, effect of maxillary impacted third and fourth molars on, 712
Neutroclusion, with one peg lateral incisor and one lateral incisor missing, 465
News and notes, 103, 200, 305, 411, 516, 621, 722, 825, 928, 1016, 1113, 1219
New York society of orthodontists, 103, 200, 1113
president's address, 419
Noma of cheek, 290
Norm values, biometric, as basis for choice of appliances or methods of treatment, 1052
Notes of countryman, 400 (Abst.)
Noyes, F. B., retires as dean, 928
Nutrition and physical degeneration, comparison of primitive and modern diets and their effects, 194 (B. rev.)
promise of, 448

O

Occlusion, dental, and skull form, constitutional factor in, 627
effect of breast or bottle feeding on, 216
from birth to three years, serial study on, 207
inferior postnormal, contribution to study of, 1121 (Abst.)
three-dimensional consideration of, 787
